

Fuel Level Senders, Tubular Type

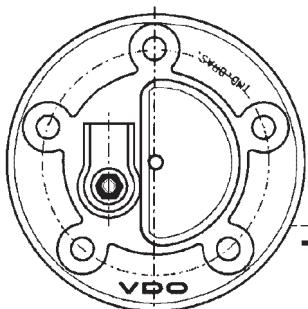

3.1.1 Tubular Fuel Level Sender, Metal, Standard

3.1.2 Tubular Fuel Level Sender, Metal, Robust

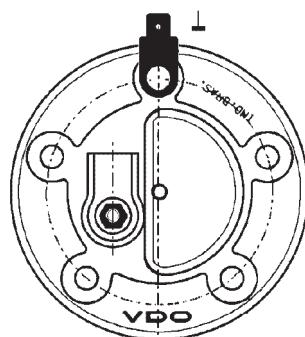

3.1.3 Tubular Fuel Level Sender, Plastic

3.1.1 Fuel Level Senders, Tubular Type | **Tubular Fuel Level Sender, Metal, Standard****Flange bolt hole circle ø 54 mm****Dimensions [mm]**

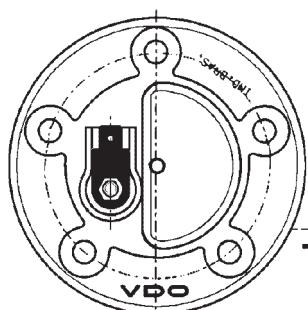

The electrical connection can be configured as follows using the two blade connectors (6.3 x 0.8 mm) supplied:

A

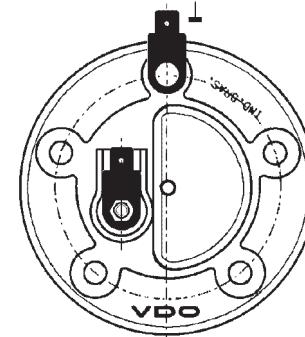

M4 for signal output, no ground connection

B

M4 for signal output, blade connector for ground

C

Blade connector for signal output, no ground connection

D

Blade connector for signal output, blade connector for ground

3.1.3 Fuel Level Senders, Tubular Type | **Tubular Fuel Level Sender, Plastic****Technical data**

Rated voltage	6–24 V (insulated return)
Resistance	3 Ω (empty) to 180 Ω (full)
Current	20 mA to 120 mA
Operating temperature	-30 °C to +70 °C
Air inlet and outlet valves	Positive pressure up to 200 mbar corresponds to flow rate of less than 25 g/min diesel fuel. Positive pressure greater than 300 mbar corresponds to flow rate of more than 25 g/min diesel fuel. Negative pressure of 10–20 mbar corresponds to flow rate of more than 1.75
Service life	1 million full/empty cycles in super unleaded fuel
Vibration test	20 to 50 Hz PSD = 0.03 g ² /Hz 50 to 1,000 Hz PSD = -6 dB/oct 8 h / axial direction
Material	Flange, sender body, float: POM-C Float lever arm: X12CrNi 177k Tube: PA11 or PA12

**Connectors**

A	Bayonet connector, DIN 72585 (A1-2.1RG/K1)
B	Outlet
C	Inlet
D	External heater outlet or pressure equalization with another tank
E	External heater inlet
F	Air outlet via valve

Adjustment

Adjust the length (**L**) of the sender unit and the distance (**D**) of the lever arm according to the height (**H**) of the fuel tank.

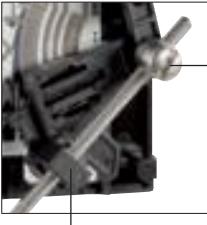

A new generation of lever-arm senders

Our new, specially developed lever-arm fuel senders now offer our customers an extremely flexible and robust way of ensuring reliable fuel measurement for various tank depths.

The system is based on a lever arm, which generates a signal corresponding to the current fuel level. The length of the lever arm can be adapted to specific requirements and shortened as needed. This makes it possible to equip various tank depths (145 mm to 400 mm) using just one system – something that is particularly advantageous with shallow tanks.

Two versions of the adjustable lever-arm fuel level sender are available, with and without a warning contact. The integrated warning contact version generates an additional control signal when the fuel level in the tank falls to a pre-defined level, which can be used to trigger an external reserve level indicator, for example. A specialized bearing with many years of proven marine use allows the lever arm to compensate for slopping of fuel in the tank. This reliable, rugged design delivers high accuracy read outs and is now available for a wide range of alternative applications, from small machines through agricultural vehicles to large stationary machines.

ALAS I

Adjustment screw

Specialist lever bearing with backlash compensation. Compensates for slopping of fuel (e.g., boats at sea).

Flexible adjustment for tank depths from 145 to 400 mm.

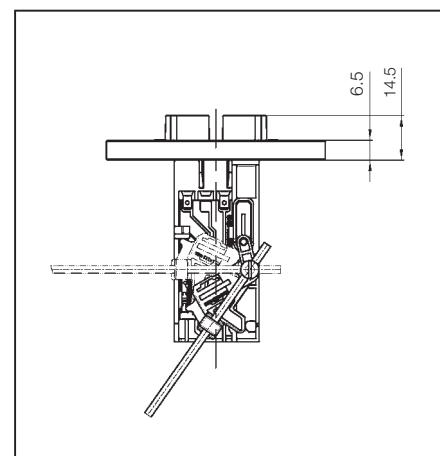

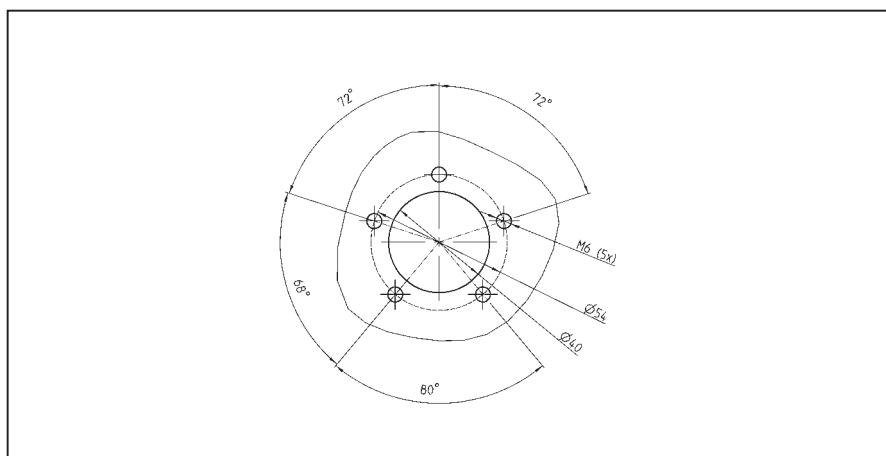

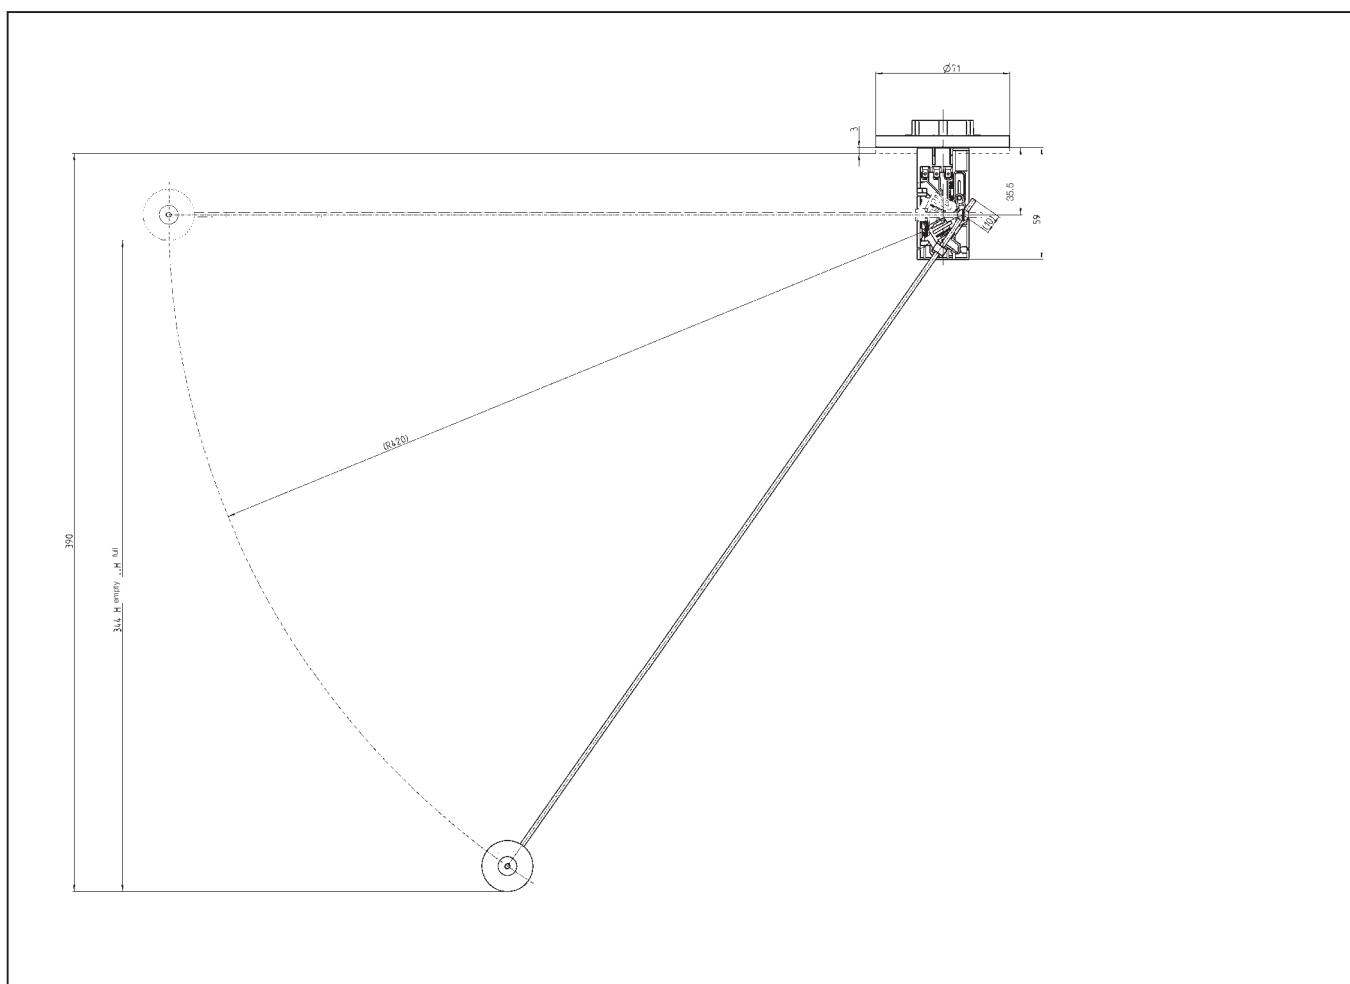

Mounting kit (available separately, not included as standard)

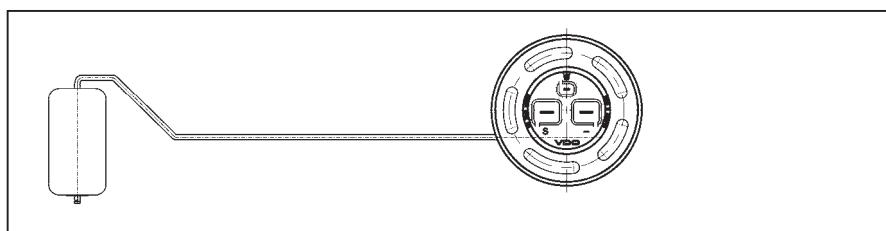

Benefits
<ul style="list-style-type: none"> • Adjustable lever-arm fuel-level sender • Available with and without warning contact • Ø 54 mm – standard flange • 3 different resistance ranges (DSN thick-film technology) for use with standard gauges (alternative resistance ranges can be defined according to specific customer requirements) • Straightforward adaptation to different tank depths thanks to easily adjusted lever arm • Rugged design • Long service life, redundant contact system • All metal construction in stainless steel • Nitrile rubber float – will not sink if damaged • Electrical connections protected by connector housings • Elongated holes for flexible installation • Lever bearing with backlash compensation guarantees extended service life, continuously compensating for wave action affecting boats, for example • Longlife resistive element (1 million "full/empty" cycles with super unleaded fuel)

Wide range of applications
<ul style="list-style-type: none"> • Small engines and construction machines (mini-excavators, dumpers, compressors, etc.) • Processing and agricultural machinery • Marine applications (sports and leisure boats, jet skis, etc.) • Two-wheeled vehicles (motorcycles, scooters, etc.) • Micro cars, quad bikes • Stationary machines (mini-excavators, dumpers, compressors, etc.)

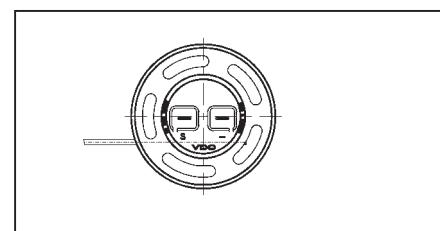

Dimensions [mm]

With warning contact

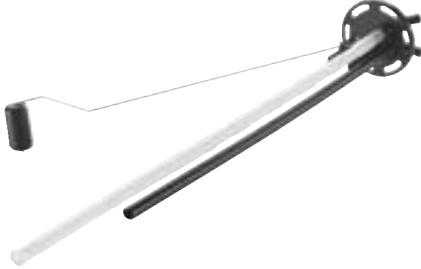

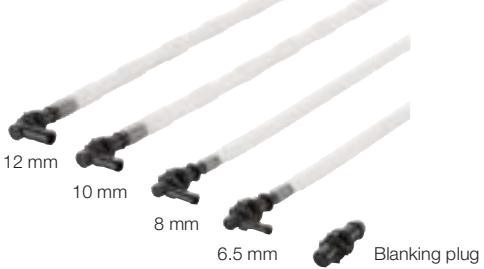

Without warning contact

ALAS I characteristics (full-empty)	180-2.5 with warning contact	180-2.5 without warning contact	33.5-240 with warning contact	33.5-240 without warning contact	90-2 with warning contact	90-2 without warning contact
Order number, 1 unit/pack	A2C59510165	A2C59510171	A2C59510166	A2C59510172	A2C59510167	A2C59510173
Order number, 10 units/pack	A2C59510162	A2C59510168	A2C59510163	A2C59510169	A2C59510164	A2C59510170

Technical data	
Tank depth	For tank depths from 145 to 400 mm
Rated voltage	6–24 V, insulated return
Resistance ranges	<ul style="list-style-type: none"> • 3 Ω (empty) to 180 Ω (full) • 240 Ω (empty) to 33.5 Ω (full) • 2 Ω (empty) to 90 Ω (full) • Optional warning contact at 15% remaining volume • Measurement resolution of 39 discrete levels • Alternative resistance ranges can be defined according to specific customer requirements
Mounting geometry	5-hole flange with 54 mm diameter
Electrical connection	6.3 mm x 0.8 mm (2 x) 2.8 mm x 0.8 mm (1 x)* * Only on versions with warning contact

3.2.3 Fuel Level Senders, Lever-Arm Type | Adjustable Lever-Arm Fuel Level Sender, ALAS II

Item description	A2C5 number (packaging)	Contents
		
Adjustable lever-arm sender with inlet and outlet option, 180-2.5 ohms (generic, 10 units/pack)	A2C59510946	Sensor assy
Adjustable lever-arm sender with inlet and outlet option, 33.5-240 ohms (generic, 10 units/pack)	A2C59510973	Sensor assy
Adjustable lever-arm sender with inlet and outlet option, 90-2 ohms (generic, 10 units/pack)	A2C59510975	Sensor assy
Lever (generic, 10 per/pack), individually boxed with outer box	A2C59511479	Lever assy
		
Inlet, 12 mm (10 per/pack), individually boxed with outer box	A2C59510949	Connector assy
Inlet, 10 mm (10 per/pack), individually boxed with outer box	A2C59510951	Connector assy
Inlet, 8 mm (10 per/pack), individually boxed with outer box	A2C59510953	Connector assy
Inlet, 6.5 mm (10 per/pack), individually boxed with outer box	A2C59510955	Connector assy
		
Outlet, 12 mm (10 per/pack), individually boxed with outer box	A2C59510950	Connector assy
Outlet, 10 mm (10 per/pack), individually boxed with outer box	A2C59510952	Connector assy
Outlet, 8 mm (10 per/pack), individually boxed with outer box	A2C59510954	Connector assy
Outlet, 6.5 mm (10 per/pack), individually boxed with outer box	A2C59510956	Connector assy
Blanking plug (10 per/pack), multipack	A2C59510965	Blanking plug assy
